Indian Institute of Management Tiruchirappalli

Requires

Research Associate (1 or 2)

For **Center for Applied Research in Data Science (CARDS)**

Job Description: The CARDS conducts applied research in data science to provide data driven insights for government and non-government agencies at IIM Tiruchirappalli. The project would involve primary and secondary research work related to government agencies.

Applicant should be flexible with working hours as timelines of the project may be short. This is a purely contractual position for 3 months only after which tenure may be extended based on performance and mutual consent.

Educational Qualification for Research Associate (s): The applicant should be Ph.D. or advance stage of Ph.D. (Information Systems/Information technology) with strong aptitude towards research. In addition, applicant should have strong analytical and report writing skills.

Compensation Research Associate: Consolidated salary ₹ 40,000 per month.

Location: IIM Tiruchirappalli
